Email	dalimanju15@gmail.com	**Profile**	https://minjikim123.github.io/mk-portfolio/

An experienced programmer with dynamic work experiences in software development specializing in C# and .NET. with strong knowledge of SDLC and wide range of skill sets in object-oriented programming. Effective in both team and individual work environments, communicative, quick learner, and a talented problem solver.

TECHNICAL SKILLS

- Web application development –Node.js, React.js, ASP.NET, HTML, CSS
- WPF development – C#, .NET
- Data Management – SQL, PL/SQL, NoSQL
- Java
- RPA (Robotic Process Automation) – Selenium, BluePrism

EXPERIENCE

2020-10 – 2020-12 **Peer Tutor**
Centennial College, Toronto, ON
- Tutored 20+ students on technical skills: Java EE, C# (WPF), and Web development (MERN stack)

2020-05 – 2020-08 **Software Developer Intern**
Zenith I&T, Seoul, Korea
- Successfully implemented RPA processes for the application of auto-execution on a remote production server using tools such as: Microsoft Automation API, PsTools, and SQL.
- Facilitated daily data export jobs by creating a web automation tool using Selenium, C#, and XML.

2019-09 – 2020-12 **Software Developer Co-op**
RBC, Toronto, ON
- Utilized Blue Prism RPA processes, .NET, Selenium, and SQL to develop an automation tool for *ServiceNow* incident ticketing process of 5+ different client applications.
- Assisted in creating an efficient C# tool to manage data from Active Directory by extracting and exporting the data to excel.

2019-01 – 2019-04 **Application Developer Co-op**
CIBC, Toronto, ON
- Supported in developing a user-friendly WPF tool to run calculation jobs and managed database-level user roles and privileges on different servers.
- Automated the daily execution of 10+ batch files to manage mortgage processes and to generate reports.

EDUCATION

2017-09 – 2020-12 **Software Engineering Technology Advanced Diploma** *(Honours)*
Centennial College, Toronto, ON

PROJECT

EduCloud – *MERN (MongoDB, Express.js, React.js, Node.js) Stack, REST API, WebSocket*
https://github.com/MinJiKim123/mk-mern-project
- Created a website in which students can communicate through chat function and schedule events via calendar

Movie4Share - *ASP.NET, MVC Pattern, AWS S3, AWS DynamoDB, AWS Elastic Beanstalk*
https://github.com/MinJiKim123/mk-aspnet-aws-uploadvideo
- Developed and published an interactive website that lets users to upload and download videos with reviews
